

EUFMC GOES VIRTUAL FOR 2021

The 2021 Electric Utility Fleet Managers Conference will be held as a virtual event in early June of next year.

“The decision to hold EUFMC as a virtual conference in 2021 was not an easy one, but with uncertainty about pandemic restrictions and travel guidelines among attendee companies it is the right choice,” said Jeffrey Schneider, EUFMC President and Manager Transportation at Louisville Gas & Electric-KU. “The board of directors is now working to develop and produce the industry’s leading event for utility fleet professionals in a virtual format for 2021 at a level of quality that has been the hallmark of EUFMC.”

Plans for EUFMC in 2021 as a virtual conference include:

- Exhibits and Equipment Demonstrations featuring educational and technical presentations by suppliers
- Educational sessions on [Essential Tools For Fleet Excellence](#)
- Roundtables where fleet executives can address common challenges by sharing best practices and working with suppliers to find solutions

Details about EUFMC 2021 will be announced in January by email, on the [Electric Utility Fleet Managers Conference](#) web site and at [EUFMC on LinkedIn](#).
