WILLIAMSBURG, VA

CELEBRATING 70 YEARS

EUFMC to Focus on Solutions to Fleet Management Challenges

With a focus on finding solutions to fleet management challenges, a range of topics are being planned for the 2023 [EUFMC](#) educational program -- [Driving Safety](#), [Sustainability & Technical Expertise](#). The 70th anniversary conference will be held June 4-7 at the Williamsburg Lodge and Conference Center in Williamsburg, Virginia.

Featuring presentations by fleet executives, manufacturers and industry experts, the EUFMC General Session will address highly important issues, including sessions on preparing for the transition to ZEVs and building charging infrastructures. Other current and traditional subjects on the educational agenda will include best practices for Safety and Compliance, Fleet Management, Fleet Maintenance, and new technologies.

EUFMC signature events also include Roundtables where fleet representatives and suppliers exchange information and discuss mutual challenges, find solutions and develop best practices, a Drive-Through utility equipment demonstration, and an equipment show that is the site of more than 60 displays.

As the premier, invitation only industry event, EUFMC continues to be a growing favorite of professionals from fleets across North America that operate utility equipment. The conference continues to expand its membership to include fleet managers from electric utilities, electrical contractors, utility co-ops, tree care operations, municipalities, and beginning this coming year, telecom fleets.

The EUFMC's strategy of extending membership to all types of companies that operate utility equipment has allowed it to grow by nearly 10% annually, culminating in 2022 in another year of record attendance that numbered 157 fleet representatives, including 70 first-time attendees. Also at the conference were representatives from 87 manufacturers and providers of vehicles, equipment, products and services for utility fleet operations.

The 2023 EUFMC will mark the 70th anniversary of the event's founding. [Our History](#) provides a look back at the conference's seven decade tradition of serving utility fleets.

EUFMC is proud to have been named the Best Annual Transport Trade / Industry Event 2022 – USA in the seventh annual Hospitality Awards by LUXlife Magazine. The award posted at <https://www.lux-review.com/winners/electric-utility-fleet-managers-conference/>

recognizes the exceptional services and “the efforts of individuals and businesses in the hospitality sector who consistently go above and beyond for their clients.”
