Driving Safety, Sustainability & Technical Expertise

[EUFMC](#), the premier educational conference for fleets operating utility equipment, will be held June 5-8, 2022 at the Williamsburg Lodge and Conference Center in Williamsburg, Virginia.

“Driving Safety, Sustainability & Technical Expertise is the focus of the EUFMC,” said Jeffrey Schneider, EUFMC President and Manager of Transportation at Louisville Gas & Electric/Kentucky Utilities. “Through presentations by fleet executives, suppliers and industry experts, as well as roundtables for addressing common challenges and sharing best practices and solutions, our attendees will find great value as we return to our annual in-person conference in 2022.”

At EUFMC fleet representatives gain knowledge about the design, procurement, application, operation, management and maintenance of utility equipment by interacting with manufacturers and suppliers of vehicles, equipment, products and services for their operations. EUFMC plans include a Drive-Through utility equipment demonstration and an Equipment Show with more than 60 displays.

[EUFMC Attendees](#) in Colonial Williamsburg regularly include more than 125 fleet representatives, and over 350 representatives from 100 manufacturers.

“We have had multiple benefits from attending this conference, from getting resolutions to equipment issues to finding vendors that have helped with our productivity level and beneficial cost savings as well as countless relationships built with other fleet managers where you can share ideas, new technologies trialed and triumphed and discuss challenges.”

Melissa Stewart
Fleet Technical Services Manager
Alabama Power Company

Attendance fees for EUFMC 2022 have been set and the conference will accept payments in 2021 for company budgeting purposes. Fees for fleet professionals are refundable. Supplier fees are refundable as noted in the [Conference Rules and Regulations](#).
