EUFMC 2027 Planning Begins

Rob Baker from Florida Power & Light Company Joins the EUFMC Board of Directors

The EUFMC Board of Directors has begun planning for the 74th annual conference. The industry's most valuable educational, equipment and networking event for utility fleets will be held June 6-9, 2027, at the Williamsburg Lodge and Conference Center in Williamsburg, Virginia.

Joining the EUFMC board is Robert S. Baker, director of fleet services at Florida Power & Light Company (FPL).

"As an EUFMC attendee, I've seen the tremendous resource the conference is for utility fleets," Baker said. "By bringing together decision makers to discuss common issues, and by giving fleet professionals direct access to suppliers, EUFMC helps everyone achieve our goals. As a member of the EUFMC board, I'm looking forward to using my fleet management and safety experience to help the conference continue to offer incredible value to attendees and the industry."

At FPL, Baker is responsible for the utility's automotive and construction equipment fleet, including acquisition, maintenance, and disposal. His duties include responsibility for all vehicle garage and fueling operations, compliance with legislative and public agency guidelines, federal and state rules and regulations, and taxing requirements. Rob also has responsibility for the fleet at NextEra Energy Resources, the parent company of FPL.

"Rob Baker brings a wealth of experience to the board of directors," said Todd Carlson, EUFMC president. "His background in many areas of utility fleet management will be very valuable as we plan the EUFMC educational program and equipment events. Rob's leadership skills will also be an important part of the ongoing growth and development of the industry's premiere conference for utility fleet professionals."

EUFMC HIGHLIGHTS

EUFMC 2026 set a record for fleet representative registrations. Attendees included professionals from 97 investor-owned utilities, 33 utility contractors, 21 utility cooperatives, 9 municipal operations, and 15 other fleets that operate, manage and maintain utility equipment.

EUFMC's fourth annual Women in Utility Fleet gathering was held for nearly 60 women fleet professionals and women representatives from manufacturers and suppliers of services for utility fleets registered for the 2026 conference.

Driving Safety, Sustainability & Technical Expertise, the conference educational program, included presentations by 27 fleet executives, manufacturers, and industry experts, and Roundtables where fleet representatives and suppliers find solutions to mutual challenges.

The EUFMC Equipment Show featured 96 exhibitors and the conference Drive-Thru Demonstration included 45 presentations showcasing 86 vehicles and pieces of equipment for utility fleet operations.

Special Activities included the annual EUFMC Golf Tournament, Colonial Williamsburg tours, a Sunrise Guided Run/Walk, a spouse reception, a golf clinic, a yoga class, and a Spa and Service Break.

SAVE THE DATE: Fleet Registration for EUFMC 2027 will open this fall. Supplier registration opens early next year.
